European Patent Office as Searching and Examining Authority

The European Patent Office (EPO) may act as the International Searching Authority (ISA) for an international application filed with the United States Receiving Office or the International Bureau (IB) as Receiving Office where at least one of the applicants is either a national or resident of the United States of America. However, the EPO is no longer a competent ISA, within the meaning of PCT Article 16(3), for international applications filed by U.S. residents or nationals on or after 01 March 2002 in the USPTO or IB as a Receiving Office, and where the application contains one or more claims directed to the field of business methods. For the definition of what the EPO considers to be precluded subject matter in the field of business methods, applicants should see the "Notice from the President of the European Patent Office," dated 26 November 2001, and which was published as Annex A in the "Notice Concerning EPO Competence to Act as PCT Authority" in the *Official Gazette* at 1255 O.G. 878, on February 19, 2002.

The European Patent Office may act as the International Preliminary Examining Authority (IPEA) for an international application filed in the United States Receiving Office or the International Bureau as Receiving Office where at least one of the applicants is either a national or resident of the United States of America, provided that the European Patent Office acted as the International Searching Authority. However, the EPO is no longer a competent IPEA, within the meaning of PCT Article 32(3), for international applications filed by U.S. residents or nationals in the USPTO or IB as a Receiving Office where the corresponding demand is filed with the EPO on or after 01 March 2002, and where the application contains one or more claims directed to the fields of business methods.

The EPO resumed its competence as an International Searching Authority and International Preliminary Examining Authority, effective January 1, 2004, for international applications filed by nationals or residents of the United States of America where the application contains one or more claims relating to the field of biotechnology. This change was announced in the *Official Gazette* at 1277 O.G. 230, on December 30, 2003.

The EPO resumed its competence as an International Preliminary Examining Authority, effective July 1, 2004, for demands filed by U.S. residents or nationals on or after July 1, 2004, for international applications filed by nationals or residents of the United States of America where the application contains one or more claims relating to the field of telecommunications. This change was announced in the *Official Gazette* at 1277 O.G. 230, on December 30, 2003.

The search fee of the European Patent Office was increased, effective September 15, 2006, and was announced in the *Official Gazette* at 1309 O.G. 102, on August 15, 2006.

Korean Intellectual Property Office as Searching and Examining Authority

For use of the Korean Intellectual Property Office as an International Searching Authority and International Preliminary Examining Authority for international applications filed in the United States Receiving Office, see the notice appearing in the *Official Gazette* at 1302 O.G. 1261 on January 17, 2006.

The search fee of the Korean Intellectual Property Office was increased, effective May 15, 2006, and was announced in the *Official Gazette* at 1306 O.G. 90, on May 16, 2006.

The mail stop should generally appear as the first line in the address.

Some correspondence may be submitted electronically. See the Office's Internet Web site http://www.uspto.gov for additional information.

SECTION 1.— INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.
